

Afghan Wireless Co-Sponsors Kabul Life InStyle And KITEX Expositions

Kabul is hot right now.

No, I'm not stating the obvious about our July weather?my comment expresses how proud Afghan Wireless is to have been a co-sponsor of two highly successful, global business festivals hosted at The Afghan Expo Center: The **2015 Kabul Life InStyle Expo** and the **KITEX 2015** Technology Exhibition.

Both events illustrated how Kabul?and Afghanistan?is becoming a more enticing and engaging destination for those insightful and innovative global companies who are seeking promising new markets.

Afghan Wireless was the Bronze Sponsor of The Kabul InStyle Expo 2015. The event attracted over 97,000 visitors and provided a vibrant atmosphere for 350 exhibitors, who represented many of the world's leading luxury and consumer brands.

This summer, we've spent so much time at The Afghanistan Expo Center, that its starting to feel like a second home?and here's why: Afghan Wireless was the Gold Sponsor of **KITEX 2015**, Afghanistan's biggest Information and Communications Technology (ICT) Exhibition. The June 13th through 16th event was also co-sponsored by **The Ministry of Communications and IT**.

KITEX 2015 brought together more than 150 ICT Companies and showcased the latest developments and emerging trends in ICT products and services. Afghan Wireless used its leading presence at the exhibition to unveil our Company's new suite of next-generation wireless communications services, including Afghan Wireless' 3.75G High Speed Internet Services and the Afghan Wireless My Money Mobile App, as well as the My Money Terminal, demonstrating how our customers can complete transactions using our My Money Service.

We also debuted our HD Voice Informational Video Presentation and a new suite of Mobile Account Management Solutions using Afghan Wireless' Interactive Voice Dialogue Service (IVR), our Company Self Care Web Portal and the new Afghan Wireless Account Management App.

Both events?The 2015 Kabul Life InStyle Expo and the KITEX 2015 Technology Exhibition?gave us an amazing opportunity to showcase the world-class products and services we provide to our clients. Everyday, we're amazed and excited by the opportunity to show you why Afghan Wireless remains Afghanistan's most advanced?and most successful?wireless communications company.
