

AFGHAN WIRELESS LAUNCHES 3G and 3.75G+ HIGH SPEED COMMUNICATIONS SERVICES IN MAZAR-I-SHARIF

Balkh Province Becomes Fourteenth Province To Join AWCC's Rapidly Expanding, Global-Class High Speed Communications Network

Kabul, Afghanistan ? June 29, 2016 ? Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com), the nation's first mobile communications company, the founder of Afghanistan's mobile communications market and a leading provider of voice, data, Internet and mobile payment services to over 5,000,000 consumers and businesses, announced the expansion of its 3G and 3.75G+ high-speed network services to Mazar-I-Sharif, and throughout Balkh Province.

Balkh is the fourteenth province to join AWCC's rapidly expanding 3G and 3.75G+ network. Afghan Wireless' 3G and 3.75G+ service, the nation's fastest and most technologically advanced communications network, is now available in Badakshan, Baghlan, Balkh, Farah, Helmand, Jalalabad, Kabul, Kandahar, Kunar, Kunduz, Laghman, Nimroz, Takhar and Zabul Provinces.

AWCC's Business and Consumer clients in Mazar I Sharif and Balkh Province can now use AWCC's 3G and 3.75G+ high-speed service, to send and receive the largest data files, access the fastest download speeds and utilize an array of the most innovative file sharing, streaming, video and data services.

In addition, AWCC's business and individual clients throughout Balkh Province will now have the option of selecting one of AWCC's service plans to talk in the clearest most natural sound possible via **AWCC HD VOICE** Services. AWCC is the only network in Afghanistan to offer HD Voice, coupled with the fastest broadband 3G and 3.75G+ network.

Together, these two solutions give AWCC subscribers the clearest voice calls possible and will also provide AWCC's clients with deep, robust indoor signal coverage. AWCC's clients can learn more about how to use their new high speed service by reading the Company's Frequently Asked Questions (FAQ), Information Sheet: <http://afghan-wireless.com/internet-3g2g/3g-internet/3g-faqs/>.

“Starting today, our clients in Mazar I Sharif and indeed, throughout Balkh Province can enjoy access to AWCC's 3G and 3.75G+ service, Afghanistan's fastest, most advanced communications network,” said Mr. Amin Ramin, the Managing Director of Afghan Wireless. “The expansion of our Company's network to Mazar I Sharif and Balkh Province, is the latest successful result of AWCC's strategy to provide 3G and 3.75G+ services to every province in Afghanistan,” Mr. Ramin said.

The continued expansion of AWCC's 3G and 3.75G+ high-speed network, in conjunction with AWCC's other business activities, illustrates the Company's deep commitment to Afghanistan's economic growth and progress. Afghan Wireless, as the nation's largest private employer, provides employment to more than 6,000 Afghans through its direct operations and to more than 100,000 other Afghan citizens through its ecosystem of dealers and vendors.

About Afghan Wireless:

The Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com), is Afghanistan's first wireless communications company and the founder of Afghanistan's wireless communications market. Launched in 2002 by Mr. Ehsan Bayat, Chairman of The Bayat Group (www.bayat-group.com), AWCC provides 2.5G, 3G and High-Speed 3.75G+ Voice, Data, Internet and Mobile Banking Services to more than five million Business and Consumer Clients, located in all of Afghanistan's thirty-four provinces. The Company has global partnerships with 425 wireless carrier networks in 125 countries.
