

AFGHAN WIRELESS LAUNCHES 4G LTE NETWORK SERVICE IN MAZAR I SHARIF AND GHAZNI CITY

AWCC, Afghanistan's Largest, Most Advanced 4G LTE Network Continues Rapid Expansion of Global Class Communications Services Throughout the Nation

Kabul, Afghanistan?August 13, 2019?Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com), Afghanistan's first mobile communications company, the founder of Afghanistan's mobile communications industry, and Afghanistan's **largest** provider of 4G LTE HD Voice, data, entertainment and mobile payment services to over 5,000,000 consumers and businesses, announced that the Company's **4.75G+ LTE** service?Afghanistan's fastest and most advanced 4G LTE Network?is now available to subscribers in **Mazar I Sharif** and **Ghazni City**.

AWCC launched its 4G LTE network in May 2017 and the company quickly established itself as Afghanistan's premier provider of innovative, global class 4G LTE communications services. AWCC's 4.75G+ LTE Network service provides commercial and consumer subscribers with the fastest data upload and download speeds available in Afghanistan today.

The extension of AWCC's proprietary, high-speed 4G LTE network to Mazar I Sharif and Ghazni City reflects the strong and growing demand from Afghan businesses and consumers for world-class, high speed communications services, and the continued successful strategic implementation of a rapid and robust expansion of AWCC's 4G LTE network throughout Afghanistan.

?The debut of AWCC's 4.75G+ LTE service in Mazar I Sharif and Ghazni City, demonstrates AWCC's commitment to providing innovative, ultra-fast communications services to Afghan consumers and companies,? said Mr. Amin Ramin, the Managing Director of AWCC.

?Afghan Wireless has the nation's largest and most advanced 4G LTE communications network,? Mr. Amin said. ?AWCC will continue to extend our 4G LTE network?and our leadership in the communications sector?so that our communications, mobile payments and technology solutions become available to every Afghan, everywhere throughout our nation.?

About Afghan Wireless:

The Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com) is Afghanistan's first wireless communications company and the founder of Afghanistan's wireless communications market. Launched in 2002 by Mr. Ehsan Bayat, Chairman of The Bayat Group (www.bayat-group.com), AWCC provides 4G LTE, 3.75G+, 3G, 2.5G, Voice, Data, Internet and Mobile Payment Services to more than five million Business and Consumer Clients, located in all of Afghanistan's thirty-four provinces. The Company has global partnerships with 425 wireless carrier networks in 125 countries.
