

AFGHAN WIRELESS LAUNCHES ADVANCED 4.75G+ LTE NETWORK SERVICE IN KANDAHAR AWCC Deploys New, Ultra-Fast 4.75G+ Afghanistan's Most Advanced Generation of 4G LTE Service to Kandahar, Provides Subscribers with Complimentary SIM Upgrade to New Service

Kabul, Afghanistan?October 02, 2018?Afghan Wireless Communication Company (www.afghan-wireless.com)],

Afghanistan's first mobile communications company and the nation's largest provider of 4G LTE communications services, announced today that the Company's **4.75G+** service?AWCC's ultra-fast and most advanced generation of **4G LTE Advance** service?is now available to subscribers in Kandahar City.

AWCC?the founder of Afghanistan's wireless communications sector and for nearly two decades, the undisputed leader in providing communications services to Afghans?launched Afghanistan's first and largest 4G LTE network in May 2017. Intensive and growing demand for advanced and reliable high-speed communications services has supported the aggressive expansion of AWCC's 4G LTE service area.

AWCC's Kandahar based subscribers will enjoy access to the Company's 4.75G+ service, the fastest and most innovative capability on AWCC's nationwide 4G LTE network. The 4.75G+ service provides both commercial and consumer subscribers with the fastest data upload and download speeds available in Afghanistan today.

Afghan Wireless will celebrate the debut of its 4.75G+ Service in Kandahar by providing **invited subscribers** with an exciting and enticing range of special offers, including a complimentary upgrade of **their old SIM card** to the new 4.75G+ SIM card, and an additional 1GB data bundle?both at no additional charge to the client. AWCC subscribers can complete their complimentary 4.75G+ upgrade at any Kandahar City AWCC Brand shop, AWCC Service Center or an AWCC Mobile Service Booth.

?Launching AWCC's 4.75G+ service?Afghanistan's most advanced 4G LTE technology?in Kandahar, demonstrates our commitment to providing Afghans with the innovative technologies and services that are critical to our nation's economic development,? said Mr. Amin Ramin, the Managing Director of Afghan Wireless. ?Deploying our **4G LTE Advance** network in economically vital areas such as Kandahar?and throughout Afghanistan?will give all Afghans access to global class communications services and make a powerful contribution to Afghanistan's growth and technological progress.?

About Afghan Wireless:

The Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com) is Afghanistan's first wireless communications company and the founder of Afghanistan's wireless communications market.
