

AFGHAN WIRELESS LAUNCHES SUPER WiFi SERVICES IN KABUL CITY

Over 350 Advanced Hot Spots Bring Fast, Reliable and Continuous Mobile Internet To AWCC's Kabul Subscribers Kabul, Afghanistan?August 18, 2015?The Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com), the nation's **first** Smartphone and mobile tele-communications company, the founder of Afghanistan's mobile communications market and a leading provider of 2G & 3G Voice, with true Smartphone support for HD Voice, and data coupled with mobile banking services to consumers and businesses, announced the debut of the Company's **'Super WiFi,'** high speed wireless Internet services in Kabul City.

Now, AWCC's Kabul based Business and Consumer clients can connect to the Company's network of over 350 Super WiFi Hotspots, geographically positioned throughout Kabul, to provide both mobile and fixed base True Broadband High Speed Internet access to the home or office.

AWCC's clients, who use Smartphones, Tablets, Laptops and other Internet enabled devices, will be able to access AWCC's WiFi-Enabled voice calling and texting service, in addition to fast download speeds, video streaming and data services, anywhere in Kabul, at any time.

Clients will access AWCC's Super WiFi Service using four easy steps:

- Click on **'Super WiFi'** to connect
- Register on the webpage that opens and use Afghan Wireless balance to charge the Super WiFi account
- Choose a plan from the Super WiFi broadband plans
- Begin using the Super-WiFi service.

Super Secure Login: AWCC clients access the Super WiFi Service by using a double password login system. AWCC's **'Super Secure'** login protocol, provides Super WiFi users with the highest levels of security and account protection.

AWCC's Super WiFi service provides AWCC's clients with an impressive selection of benefits and the most advanced download speeds in Afghanistan. Residential buildings within the Super WiFi service area will have the fastest available Internet connectivity. University Students and mobile professionals can rapidly and reliably access critical files and information. AWCC clients who are waiting online at Government Ministries can use AWCC Super WiFi to boost their productivity and accomplish important professional and personal projects.

'The launch of Super WiFi Services in Kabul, is the latest success in our strategy to provide the Afghan people with the most innovative, world class broadband, high speed, mobile Internet services,' said **Mr. Amin Ramin, AWCC's Managing Director.** **'From Super WiFi, to High-Speed Mobile Broadband and our new HD Voice Service, AWCC continues to aggressively develop the infrastructure, products and services, that strengthen our market leadership'**and most importantly**'empower our clients to achieve their most vital professional and personal aspirations.'**

About Afghan Wireless:

The Afghan Wireless Communication Company (AWCC) (www.afghan-wireless.com), is Afghanistan's first wireless communications company and the founder of Afghanistan's wireless communications market. Launched in 2002 by **Mr. Ehsan Bayat, Chairman of The Bayat Group (www.bayat-group.com)**, AWCC provides 2.5G, 3G and High-Speed 3.75G Voice, Data, Internet and Mobile Banking Services to more than four million Business and Consumer Clients, located in all of Afghanistan's thirty-four provinces. The Company has global partnerships with 425 wireless carrier networks in 125 countries.

A leader of Afghan-based economic development, AWCC's provides employment to more than 6,000 Afghans through its direct operations and employs more than 100,000 other Afghan citizens through its ecosystem of dealers and vendors.
