

Afghanistan's most advanced 4G LTE Network Continues Strong and Successful Growth

Kabul, Afghanistan?August 11, 2020?Afghan Wireless Communication Company (AWCC) ([afghan-wireless.com](#)), Afghanistan's first mobile communications company and the nation's largest provider of 4G LTE communications services, announced today that the Company's **4.75G+ LTE** service?Afghanistan's fastest and most advanced 4G LTE Network?is now available to subscribers in Kunduz and Badakhshan cities:

The continued expansion of AWCC's 4.75G+ LTE solution to Afghanistan's leading cities highlights AWCC's undisputed position as the nation's foremost provider of advanced and innovative communications services. AWCC's 4.75G+ LTE Network service provides commercial and consumer subscribers with the fastest data upload and download speeds available in Afghanistan today.

Since AWCC launched Afghanistan's first and largest 4G LTE network in May 2017, intensive and growing demand from subscribers for advanced and reliable high-speed communications solutions has supported the aggressive growth of AWCC's 4G LTE service area.

?Expanding our 4.75G+ LTE network to Kunduz and Badakhshan cities is the latest example of AWCC's commitment to provide Afghans with the nation's most innovative and reliable communications services,? said Mr. Ehsan Bayat, Chairman of The Bayat Group and Afghan Wireless. ?From our ultra-fast 4.75G+ LTE network, to MyMoney mobile payments and other solutions, Afghan Wireless provides people and businesses with the technologies which help them connect?and make vital contributions to our country's economic development and progress.?

About Afghan Wireless:
